

Security Without Silos: Simplify Compliance Across PCI, Privacy & Brand Standards

Even in brand-managed hotel environments where the brand oversees daily operations and provides centralized IT and compliance infrastructure, there remain critical areas where additional support can elevate your security posture and streamline compliance with industry standards (PCI DSS, GDPR/CCPA, ISO 27001, NIST CSF).

Legend: ✓ = Fully managed by brand; — = Partially supported (shared responsibility); X = Not provided by brand (hotel must manage).

Brand-managed properties benefit from centralized systems, but local execution still matters. Venza partners with managed hotels to reinforce training, documentation, and risk management at the property level, ensuring that brand standards are not only met but exceeded.
