

Know Your Risks. Defend Your Data.

How Hotels Work with Venza

Curated Solutions

Purpose-built solutions that bring together the right combination of Venza capabilities based on a property's risk profile, operational complexity, and compliance requirements. These solutions provide clear scope and outcomes hotels can operationalize with confidence.

Build What You Need

Hotels may also select and activate individual Venza products or services independently to build a solution that fits their specific needs. This approach is ideal for phased adoption, targeted initiatives, or expanding an existing Curated Solution, giving teams the flexibility to start where it makes sense and adapt over time.

Platform & Core Capabilities

Risk Management & Reporting

Venza System provides centralized visibility across training, testing, and compliance activities.

Security Awareness & Human Risk Management

Hospitality-specific security awareness training, role-based learning paths, phishing and vishing simulations, and ongoing reinforcement resources designed to reduce social engineering risk.

PCI DSS Compliance

Venza is a PCI-certified Qualified Security Assessor (QSA), with in-house experts authorized to guide and validate PCI DSS compliance. Capabilities include SAQ tools, direct QSA assistance, ASV scanning, internal vulnerability scanning, and penetration testing.

Incident Response & Breach Readiness

Cybersecurity tabletop exercises and hospitality-specific breach scenarios help leadership teams test and refine incident response plans.

Venza is the leading provider of cybersecurity, data protection, and compliance solutions built exclusively for the hospitality industry. Our cloud-based platform gives hotel teams clear visibility into risk across people, systems, and compliance, so they can move from insight to action with confidence. Paired with in-house expertise, including PCI-certified Qualified Security Assessors (QSAs), Venza helps hotels reduce risk, simplify compliance, and protect guest data in a way that fits how hospitality actually operates.

GET STARTED

Whether you need a fully curated solution or targeted capabilities, Venza helps you understand your risks and take confident action.
